## **The Brutal Truth**

**Most beginners try to:**

- Go viral

- Post random content
  - Copy big creators
  - Pray the algorithm works

**That's gambling. Search-based income is  
strategy. People who search are already  
looking to buy.**

1. Curious (What is AI?)
2. Learning (How to use AI for business?)
3. Buying (Best AI tools for digital products)

**You only monetize levels 2 and 3. This**

**But try to sell to them immediately.**

**Wrong crowd.**

**Use AI to structure a guide around that exact phrase.**

**Step 3:**

**Create:**

- Pinterest pin

• Short-form  
video • Free guide

All around the same keyword.

Now you're not guessing.

You're answering demand.
